1 I. BACKGROUND

2 A. As a result of the release or threatened release of hazardous substances at or from  
3 the Commencement Bay Nearshore/Tideflats Superfund Site in the City of Tacoma, Pierce  
4 County, Washington ("CB/NT Site"), the U.S. Environmental Protection Agency ("EPA"),  
5 other governmental entities, and certain private parties have undertaken response actions at or  
6 in connection with the CB/NT Site under Section 104 and Section 106 of the Comprehensive  
7 Environmental Response, Compensation, and Liability Act of 1980, as amended  
8 ("CERCLA"), 42 U.S.C. §§ 9604 and 9606, and will undertake response actions in the future.  
9 In performing these response actions, EPA, other governmental entities, and said private  
10 parties have incurred and will continue to incur Response Costs at or in connection with the  
11 CB/NT Site.

12 B. On September 8, 1983, EPA placed the CB/NT Site on the National Priorities List  
13 pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605.

14 C. Under a Cooperative Agreement with EPA, the Washington Department of  
15 Ecology ("Ecology") conducted a Remedial Investigation and Feasibility Study (RI/FS) of the  
16 CB/NT Site. Within the Tideflats area of the CB/NT Site, the RI/FS evaluated the nature and  
17 extent of contamination and defined problem areas for further study in the Sitcum, Blair,  
18 Milwaukee, Hylebos, St. Paul, Middle, Thea Foss (formerly known as City), and Wheeler-  
19 Osgood Waterways. Pursuant to Section 117 of CERCLA, 42 U.S.C. § 9617, EPA published  
20 notice of completion of the Feasibility Study and of the proposed plan for remedial action for  
21 the CB/NT Site in February 1989.

22 D. Because of the complexity of the CB/NT Site, response actions at the CB/NT Site  
23 are currently coordinated under seven operable units managed primarily by EPA and Ecology,  
24 including: (1) Operable Unit 01 - CB/NT Sediments; (2) Operable Unit 02 - ASARCO  
25 Tacoma Smelter; (3) Operable Unit 03 - Tacoma Tar Pits; (4) Operable Unit 04 - ASARCO

1 Off-Property; (5) Operable Unit 05 - CB/NT Sources; (6) Operable Unit 06 - ASARCO  
2 Sediments; and (7) Operable Unit 07 - ASARCO demolition.

3 E. On September 30, 1989, EPA issued a Record of Decision (ROD) that identified  
4 eight (8) problem areas within OU1 that required sediment cleanup. The eight problem areas  
5 were the Head and Mouth of the Hylebos Waterway (hereinafter "Hylebos Waterway  
6 Problem Areas"), Sitcum Waterway, St. Paul Waterway, Middle Waterway, Head and Mouth  
7 of the Thea Foss Waterway (formerly City Waterway), and Wheeler-Osgood Waterway.  
8 Notice of the final plan was published in accordance with Section 117(b) of CERCLA.

9 F. EPA determined in the ROD that there were five major elements of the selected  
10 remedy for the CB/NT Site sediments and sources and that further investigation would  
11 determine which elements would be applied to each problem area:

- 12 i. Site Use Restrictions - To protect human health by limiting access to edible  
13 resources prior to and during implementation of source and sediment remedial  
14 activities.
- 15 ii. Source Control - To be implemented to prevent recontamination of sediments.
- 16 iii. Natural Recovery - Included as a preferred remediation strategy for marginally  
17 contaminated sediments that are predicted to achieve acceptable sediment quality  
18 through either biodegradation, or burial and mixing with naturally accumulating clean  
19 sediments within a ten (10) year period.
- 20 iv. Sediment Remedial Action - To address sediments containing contamination that  
21 is not expected to naturally recover within 10 years. The ROD required active  
22 sediment cleanup using one of the following four technologies: in-place capping,  
23 dredging and confined aquatic disposal, dredging and nearshore disposal, or dredging  
24 and upland disposal. The disposal option is to be identified during design of the  
25 remedial action.

1 v. Source and Sediment Monitoring - To refine cleanup volume estimates,  
2 characterize the effectiveness of source controls, and implement long-term monitoring  
3 of the remedial action(s) to ensure long-term protectiveness of the remedy.

4 G. Under a State Cooperative Agreement, EPA and Ecology agreed that Ecology  
5 would implement OU5 source control actions using state law authorities and EPA would stay  
6 in the lead for implementing the CB/NT sediment cleanup, OU1.

7 H. This Consent Decree involves settlement of claims for recovery of Response Costs  
8 associated with the Hylebos Waterway Problem Areas. The ROD determined that natural  
9 recovery would not sufficiently reduce contaminant concentrations in some areas of the  
10 Mouth and Head of the Hylebos Waterway within the ten (10) year period, so the ROD  
11 required source control and active sediment cleanup with one of four technology-based  
12 remedy options.

13 I. On November 29, 1993, six entities (collectively known as the Hylebos Cleanup  
14 Committee or "HCC") entered into an Administrative Order on Consent ("HCC AOC") with  
15 EPA for the preparation of, performance of, and reimbursement of oversight costs for Pre-  
16 remedial Design Activities for the Hylebos Waterway Problem Areas. By letter dated  
17 November 8, 2001, EPA confirmed that all activities required by the HCC AOC were  
18 performed, except payment of remaining oversight billings, in accordance with Section XXVI  
19 of the HCC AOC.

20 J. On August 3, 2000, EPA issued an Explanation of Significant Differences (ESD),  
21 pursuant to Section 117(c) of CERCLA, that explained the differences in the remedial action  
22 for three waterways including the Hylebos, which significantly changed, but did not  
23 fundamentally alter, the remedy selected in the ROD. The ESD finalized cleanup plans for  
24 three waterways within the CB/NT Site, selected disposal sites for all remaining contaminated  
25 sediment to be dredged and confined from the CB/NT Site, provided additional performance

standards, and documented other differences from the ROD. Based on the studies and analysis conducted under the HCC AOC with respect to the Hylebos Waterway Problem Areas, the ESD provided details on the areal extent of sediment contamination in the Hylebos Waterway Problem Areas and the estimated volume of sediment that required remediation; designated the areas that were projected to naturally recover within 10 years of remedial action; outlined EPA's decision to dispose of contaminated sediments in Blair Slip 1 and an upland regional landfill; established performance standards for mitigation for the Remedial Action; and estimated the cost of the Remedial Action at the Hylebos Waterway. Notice and public comment were taken on the ESD and notice of the final ESD was published in accordance with Section 117(c) of CERCLA.

K. The United States has entered into two additional consent decrees with four other Potentially Responsible Parties ("PRPs") at the Hylebos Waterway Problem Areas under which those parties are performing the Remedial Design and Remedial Action selected by the ESD. See, United States v. ATOFINA Chemicals et al., Civ. No. C04-5319-RBL (W.D. Wash. June 2, 2004) and United States v. Port of Tacoma, Occidental Chemical Corp., et al., Civ. No. C05-5103-FDB (W.D. Wash. Feb. 8, 2005).

L. Certain of the Settling Defendants and other parties participated in a non-binding allocation, a process in which a third-party Allocator recommended shares of liability for all then-known potentially responsible parties associated with the Hylebos Waterway Problem Areas. The Allocator's recommendations, contained in his report, titled "Hylebos Waterway-Allocator's Final Cost Allocation Formula Report, dated May 22, 2000 ("Allocator's Report"), forms, in part, a basis for this settlement. EPA independently reviewed the Allocator's Report and other pertinent information, and, as to the Settling Defendants only, accepts the Allocator's numerical allocation for purposes of this settlement. The Settling Defendants do not agree that the information or conclusions contained in the Allocator's

1 Report accurately assesses their actual or potential liability or their allocable share of any  
2 costs for any CERCLA liabilities the Settling Defendants may have for the Hylebos  
3 Waterway Problem Areas.

4 M. The Settling Defendants do not admit any liability arising out of the transactions  
5 or events alleged to have occurred in connection with the Hylebos Waterway Problem Areas  
6 within the CB/NT Site. The Settling Defendants allege that their only known involvement at  
7 the CB/NT Site is with respect to the Hylebos Waterway Problem Areas.

8 N. In accordance with Section 122(j)(1) of CERCLA, 42 U.S.C. § 9622(j)(1), EPA  
9 notified the natural resource trustees on December 26, 2000, of negotiations with the PRPs  
10 regarding the release of hazardous substances that may have resulted in injury to the natural  
11 resources under Federal, State and Tribal trusteeship.

12 O. The United States and Settling Defendants agree, and by entering this Consent  
13 Decree this Court finds, that settlement without further litigation and without the admission or  
14 adjudication of any issue of fact or law is in the public interest and is the most appropriate  
15 means of resolving this action with respect to Settling Defendants, and that this Consent  
16 Decree is fair, reasonable, and in the public interest.

17 THEREFORE, with the consent of the Parties to this Consent Decree, it is  
18 ORDERED, ADJUDGED, and DECREED:

19 **II. JURISDICTION**

20 1. This Court has jurisdiction over the subject matter of this action pursuant to  
21 28 U.S.C. §§ 1331 and 1345 and 42 U.S.C. §§ 9607 and 9613(b), and also has personal  
22 jurisdiction over Settling Defendants. Solely for the purposes of this Consent Decree and the  
23 underlying Complaint, Settling Defendants waive all objections and defenses that they may  
24 have to jurisdiction of the Court or to venue in this District. Settling Defendants shall not

18 have been asserted against the United States with regard to the Hylebos Waterway Problem  
19 Areas as provided in this Consent Decree; and  
20 c. to provide for contribution protection for Settling Defendants with regard to  
21 Response Costs, pursuant to Sections 113(f)(2) and 122 of CERCLA, 42 U.S.C. §§ 9613(f)(2)

10 thorough, comprehensive, good faith search for documents and disclosed any documents or  
11 information responsive to the request that was, at the time of the request, in the possession of  
12 its officers, directors, employees, contractors, or agents, which relates in any way to the  
13 Hylebos Problem Areas;

14 b. to the extent it provided information to the Allocator, such information was  
15 true and accurate;

16 c. it has no information that suggests its contributions of hazardous  
17 substances, pollutants, or contaminants to one or both of the Hylebos Waterway Problem  
18 Areas was greater than determined in the Allocator Report; and

19 d. it exercised its best efforts not to alter, mutilate, discard, destroy, or  
20 otherwise dispose of any records, documents, or other information relating to its potential  
21 liability regarding the Hylebos Waterway Problem Areas after EPA notified it of its potential  
22 liability for EPA response costs.

23 13. The certifications contained in Paragraph 12 inure only to the benefit of the  
24 United States and the Settling Defendants, and not to any other parties.

IX. COVENANT NOT TO SUE BY UNITED STATES

14. Covenant Not to Sue Settling Defendants by United States. Except as specifically provided in Section X (Reservations of Rights by the United States), the United States covenants not to sue or to take administrative action against Settling Defendants pursuant to Sections 106 and 107(a) of CERCLA and Section 7003 of RCRA relating to the Hylebos Waterway Problem Areas. The covenant not to sue for each Settling Defendant shall take effect upon receipt by the United States of that Settling Defendant's payment and Interest, and, in the case of a Settling Defendant making multiple payments, on receipt of the first payment and Interest, required by Section VI (Payment) and any amount due under Section VII (Failure to Comply with Consent Decree). The covenant not to sue as to each Settling Defendant is conditioned upon the satisfactory performance by that particular Settling Defendant of its obligations under this Consent Decree, including but not limited to subsequent payments required by Section VI of this Consent Decree and Appendix B, as well as the veracity of the certification made in Paragraph 12 of this Consent Decree. The unsatisfactory performance of such obligations by one or more Settling Defendants shall not invalidate, or in any way diminish, the covenant not to sue as to any other Settling Defendant. These covenants not to sue extend only to the Settling Defendants and do not extend to any other person.

X. RESERVATIONS OF RIGHTS BY UNITED STATES

15. Notwithstanding any other provision of this Consent Decree, the United States reserves, and this Consent Decree is without prejudice to, its right to institute proceedings in this action or in a new action, or to issue an administrative order seeking to compel one or more Settling Defendants to perform further response actions relating to the Hylebos Waterway Problem Areas or to reimburse the United States for additional costs of response

2 the Date of Lodging are discovered and, together with any other relevant information, indicate  
3 that the Remedial Action is not protective of human health or the environment.

4 16. The covenant not to sue by the United States set forth in Paragraph 14 does not  
5 pertain to any claims other than those expressly specified in that Paragraph, including but not  
6 limited to any civil or criminal claims under other statutes or under other Sections of  
7 CERCLA. The United States also reserves and this Consent Decree is without prejudice to,  
8 all rights against each Settling Defendant with respect to the following claims under Section  
9 106 or 107 of CERCLA:

10 a. liability for failure of a Settling Defendant to meet a requirement of this  
11 Consent Decree;

12 b. liability for costs incurred or to be incurred by the United States that are  
13 not within the definition of Response Costs;

14 c. criminal liability;

15 d. liability for damages for injury to, destruction of, or loss of natural  
16 resources, and for the costs of any natural resource damage assessments within or outside of  
17 the Hylebos Waterway Problem Areas;

18 e. liability for injunctive relief or administrative order enforcement under  
19 Section 106 of CERCLA, 42 U.S.C. § 9606, or for response costs under Section 107(a) of  
20 CERCLA, 42 U.S.C. § 9607(a), based upon Settling Defendants' ownership or operation of  
21 any part of the CB/NT Site, or upon Settling Defendants' transportation, treatment, storage, or  
22 disposal, or the arrangement for the transportation, treatment, storage, or disposal, of a  
23 hazardous substance or a solid waste at or in connection with the CB/NT Site, after execution

2 release of a hazardous substance, pollutant, or contaminant outside of the Hylebos Problem  
3 Areas.

4 17. Notwithstanding any other provision in this Consent Decree, the United States  
5 reserves, and this Consent Decree is without prejudice to, the right to reopen or institute  
6 proceedings against any individual Settling Defendant in this action or in a new action to  
7 reimburse the United States for Response Costs, and/or to issue an administrative order to any  
8 individual Settling Defendant seeking to compel that Settling Defendant to perform response  
9 actions relating to the Hylebos Waterway Problem Areas, and/or to reimburse the United  
10 States for additional costs of response if:

11 a. the United States finds that the individual Settling Defendant's  
12 Certifications made in Section VIII of this Decree are untrue or inaccurate in a material way;  
13 or

14 b. information is discovered that indicates that such individual Settling  
15 Defendant contributed hazardous substances to the Hylebos Waterway Problem Areas in such  
16 greater amount or such greater toxic or other hazardous effects that EPA determines that the  
17 discovered information materially changes the basis for entering into this settlement with the  
18 particular Settling Defendant.

19 XI. COVENANT NOT TO SUE BY SETTLING DEFENDANTS

20 18. Settling Defendants covenant not to sue and agree not to assert any claims or  
21 causes of action against the United States or its contractors or employees with respect to the  
22 remedial action at the Hylebos Waterway Problem Areas or this Consent Decree, including,

20. Settling Defendants covenant not to sue and agree not to assert any claims or causes of action against each other with regard to the matters addressed by this Consent Decree pursuant to Sections 107 or 113 of CERCLA, 42 U.S.C. §§ 9607 and 9613.

## XII. EFFECT OF SETTLEMENT/CONTRIBUTION PROTECTION

21. Nothing in this Consent Decree shall be construed to create any rights in, or grant any cause of action to, any person not a Party to this Consent Decree. The United States and each Settling Defendant expressly reserve any and all rights (including, but not limited to, any right to contribution), defenses, claims, demands, and causes of action which each Party may have with respect to any matter, transaction, or occurrence relating in any way to the Hylebos Waterway Problem Areas or the CB/NT Site against any person not a party to this Consent Decree. Nothing in this Consent Decree diminishes the right of the United States, pursuant to Section 113(f)(2) and (3) of CERCLA, 42 U.S.C. § 9613(f)(2)-(3), to pursue any such

2 that give rise to contribution protection pursuant to Section 113(f)(2).

3 22. The Parties agree, and by entering this Consent Decree this Court finds, that this  
4 settlement constitutes a judicially-approved settlement for purposes of Section 113(f)(2) of  
5 CERCLA, 42 U.S.C. § 9613(f)(2) and that each Settling Defendant is entitled, as of the  
6 Effective Date of this Consent Decree, to protection from contribution actions or claims as  
7 provided by Section 113(f)(2) of CERCLA, 42 U.S.C. 9613(f)(2), or as may be otherwise  
8 provided by law, for "matters addressed" in this Consent Decree. The "matters addressed" in  
9 this Consent Decree are all response actions taken and to be taken by the United States or by  
10 any other entity, and Response Costs incurred in connection with the Hylebos Waterway  
11 Problem Areas, including past and future Response Costs incurred and to be incurred by the  
12 United States, and past and future Response Costs incurred by any other entities in connection  
13 with the Hylebos Waterway Problem Areas. "Matters addressed" does not include any claims  
14 under contractual indemnities or any other private contractual obligations.

15 23. Each Settling Defendant agrees that, with respect to any suit or claim for  
16 contribution brought by it for matters related to this Consent Decree, it will notify EPA and  
17 DOJ in writing no later than 60 days prior to the initiation of such suit or claim. Each Settling  
18 Defendant also agrees that, with respect to any suit or claim for contribution brought against it  
19 for matters related to this Consent Decree, it will notify the EPA and DOJ in writing within  
20 30 days of service of the complaint or claim upon it. In addition, each Settling Defendant  
21 shall notify the EPA and DOJ within 10 days of any service or receipt of any Motion for

4 in the subsequent proceeding were or should have been brought in the instant action;  
5 provided, however, that nothing in this Paragraph affects the enforceability of the covenant  
6 not to sue included in Paragraph 14.

7 **XIII. NOTICES AND SUBMISSIONS**
